Introducing Our New Name

Ever since New Tribes Mission (NTM) changed its name to Ethnos360 three years ago, leadership at NTM Homes, Ethnos360's retirement community, has been considering how and when to update the retirement center name. Much planning and prayer went into the name change from New Tribes Mission to Ethnos360, and it has proven to be a positive change and a reminder that God loves all the unreached people groups of the world.

With this positive change in mind, leadership at NTM Homes surveyed the retirees, staff and volunteers for suggestions for an updated name for the retirement community. A common theme kept resurfacing: the word *Homes*. It has been a beloved nickname for the retirement center for years, and few wanted to see it disappear.

And so, after careful consideration, the name "**The Homes of Ethnos360**" was chosen. Keeping *Homes* as part of the name maintains familiarity and continuity, preserving many precious memories of our organization's founding as New Tribes Mission. And adding *Ethnos360* as part of the name ties the nostalgia of memories and service with the present ministry of Ethnos360 around the world.

Please pray with us for critical needs at The Homes.

We need a:
